Team Updates

I. **What did you do since the last meeting?**
I. Rabeya and Sunehra fixed bugs in registration/login modules, verified email confirmation workflow, and tested persistent login across multiple devices.
II. Nasrat made the content module partially functional, displaying text and images; video embedding started for magazine/journal articles.
III. Oishy completed updated documentation for API endpoints, user flows, and session management; recorded QA test results.
IV. Ameer conducted integration review between frontend and backend; tracked sprint velocity and ensured all tasks align with the sprint goal.

II. **What obstacles are you encountering?**
I. Embedded video content is not loading properly on low bandwidth connections.
II. Minor UI misalignments observed on tablet screens in dashboard and

navigation menus.

III. Notification system for new articles is still pending implementation.

III.   What do you plan to accomplish by the next meeting?

I. Nasrat will complete multimedia content embedding (text, images, and video) for the magazine/journal section.

II. Oishy will implement the notification system for new publications and update documentation.

III. Rabeya and Nasrat will begin CRUD operations for the admin article management module.

IV. Sunehra will perform cross-browser and responsive testing for login/dashboard interfaces.

V. Ameer will monitor backlog progress in Jira, address blockers, and ensure sprint scope adherence.
